CONSTRUCTION & CARE

CONSTRUCTION Machine-made, printed design. Low pile with a flat, even surface. Edges bound flat with no fringe or tassels, so the rug sits clean against furniture and vacuums without snagging.	PLACEMENT Living rooms: front legs of the sofa and chairs on the rug. Bedrooms: leave 18–24" of rug showing on each side of the bed. Runners: 2'6" for standard halls, 3' for wider halls and kitchens. Use a non-slip rug pad on hard floors.	CARE Vacuum regularly with the beater bar off. Blot spills straight away with a clean cloth and cold water — do not rub. Rotate once or twice a year to even out wear. Professional cleaning for deep stains.
